

Never Call Retreat ADC2 Module

This module work in HPS's Aide de Camp 2.15

Copy the folder and all included files into your ADC2 directory. It is suggested that a 'Never Call Retreat' folder be kept in ADC2's 'Game Sets' folder. You must know how to use the ADC2 program.

The four game scenarios have been set up in accordance with the specific instruction for each scenario – see the Never Call Retreat Rules for details.

Please review the on-map units and the pools before playing the game. All necessary markers have been provided. All flip definitions have been defined. No Infopages have been made, but all necessary game charts have been included in the folder labeled Charts and Rules. Both the rules and charts are in the .doc format.

If you have questions about this ADC2 gameset, please contact me, Jeffrey Vandine (jlv61560@yahoo.com).
